Most of the Americans are becoming convinced that the backbone of the insurgent opposition is broken. There are numerous rumors pointing to an early collapse of the insurrection. One of these is that General Pio del Pilar, the best fighter among the Filipino officers, will desert Aguinaldo and give his support to the Americans.

A priest and two members of the so-called Filipino congress who hid themselves during the fighting which preceded the capture of Malolos returned there yesterday and declared that 2,000 of the Filipino soldiers were anxious to give up

# Johnston's Sarsaparilla

THE GREAT SPRING MEDICINE.

SEVEN RUNNING SORES CURED.

JOHNSTON'S SARSAPARILLA as a Blood Food and Nerve Energizer, is the greatest SPRING MEDICINE ever discovered. It comes as a rich blessing from

heaven to the "worn out," the run down, the overworked and debilitated. That "tired feeling," those "sinking spells," the languor and despondency which arise from badly nourished nerves, from thin, vitiated blood and an underfed body, vanish as if by a magic spell. The weariness, lassitude and nervous prostration which accompany the springtime and the heat of summer, are conquered and banished at once. For every form of neurasthenia, and all ailments of the brain and nerve, insomnia, hysteria and nervousness generally, it is almost a specific. It furnishes the very elements to rebuild worn-out nerve tissues. It feeds brain, nerve centers and nerves, calming and equalizing their action; it makes rich, red, honest blood. Newness of life, new hope, new strength follow its faithful use. It makes the weak strong, and the old young again.

It was the antiquated (but now happily exploded) method in the good old times, to treat Salt Rheum, Scrofula, Cancer and other troublesome disorders arising from BLOOD TAINT with powerful alteratives, such as mercury, arsenic and other mineral agents. It was expected by this treatment that the poison could be killed while the blood was left to course through its channels holding in its circulation the specific germs of the disease. But in this way, every part of the body became more or less diseased. Nothing can be more terrible than a norribly destructive blood taint. It not only attacks virulently the different structures of the body, but many times the bones are honey-combed and destroyed. It often seeks out the nerves and spinal cord, and again it will bring decay and death to some vital organ, as the kidneys, liver or stomach. There is only one scientific method for the cure of blood taint. That is, PURIFICATION! Every particle of the blood must be removed through the execretory channels, the lungs, kidneys, bowels, liver and skin. "First pure, then peaceable." The great restorative, reconstructive and vitalizer of the blood, JOHNSTON'S SARSAPARILLA, not only radically and exhaustively removes the taint, but also removes all mercury, calomel and other minerals, and fills the veins and arteries with the ruby, glowing current of vitality. "The blood is the life." Good health means pure blood. The old and reliable remedy, JOHNSTON'S SARSAPARILLA, is universally regarded as the greatest Blood Purifier ever discovered. This fact is now established beyond question or cavil.
